Professional Summary

Motivated Computer Science undergraduate with strong skills in **React.js, JavaScript, C++, Data Structures & Algorithms, and Full-Stack Web Development**. Experienced in building AI-powered web applications, integrating REST and LLM APIs, and deploying machine learning solutions. Passionate about creating responsive applications and solving real-world problems.

Education

ABES Engineering College, Ghaziabad
B.Tech, Computer Science & Engineering
First-Year YGPA: 9.53 Expected Graduation: 2029

Crown Convent School, Budhana
Class X: 98.6% (District Rank Holder)
Class XII

Technical Skills

Programming: C++, JavaScript
Frontend: React.js, HTML5, CSS3, Responsive Web Design
Core CS: Data Structures & Algorithms, Object-Oriented Programming, Problem Solving
Web: REST API Integration, Component-Based Development
AI: Prompt Engineering, LLM API Integration, Machine Learning Fundamentals
Tools: Git, GitHub, VS Code

Projects

AI-Powered SSB Interview Preparation Platform
Live: https://npvi6wpouz6e4uqfhmuztt.streamlit.app/
GitHub: https://github.com/vanshika-rana-8989/ssb_ai.git
• Developed an AI-powered interview preparation platform that generates dynamic interview questions and AI-assisted feedback.
• Integrated LLM APIs with a responsive interface for personalized interview practice.

AI/ML Shipment Prediction System
Live: https://shipment-prediction.onrender.com/predict
GitHub: https://github.com/vanshika-rana-8989/shipment_prediction.git
• Built a machine learning application for shipment prediction using preprocessing, feature engineering, and predictive modeling.
• Deployed an interactive web interface for real-time predictions.

React Registration Portal & Website Clones
GitHub: https://github.com/vanshika-rana-8989/registration-portal.git
• Developed a responsive React registration portal with reusable components and form validation.
• Built multiple responsive website clones using React, HTML, CSS, and JavaScript.

Achievements

• First-Year YGPA: 9.53
• District Rank Holder in Class X (98.6%)
• Pre-National Level Shooting Participant
